

**LOW-COST VETERINARY PROVIDERS  
PLEASE KEEP FOR YOUR REFERENCE**

This is a list of veterinary care clinics throughout the Denver area that provide low-cost or income-based pricing for their services. Although the Stink Bug Project does not have a direct partnership with any of these organizations, they do offer affordable services to the public. Many of these providers also accept Care Credit which is a health care credit card (which can be applied for at participating locations and subject to credit approval) that can be used to help pay for veterinary services if needed.
