Mothers’ Milk Bank (MMB) collects, processes and provides donor human milk to babies across the country. Babies who receive the milk may be premature or have severe illnesses and need human milk to thrive.

的母亲们捐出了乳汁。I knew my time was limited to donate and one day, pumping and nursing would be in my past. I felt a heart full of gratitude for my excess. I am happy to have given up those hours of sleep to help another mama whose baby needed the most precious nutrient available.

The impact of the Foundation on our families is truly immeasurable. Those whom we are privileged to serve are usually in the midst of a medical crisis which is all consuming and far reaching in all aspects of their lives; the Foundation provides some relief and joy through many avenues. Whether it is purely financial or in the form of an activity such as annual gatherings to celebrate life, the Foundation provides such a pivotal role in many lives.

- Dr. Julie Zimbelman

65 Stink Bug supporters joined together in celebration at the first Stink Bug Project family reunion.

To date, the Stink Bug Project has provided 46 well-trained loving companion dogs to children who have serious medical conditions.

Our son was born suddenly and early by C-section. We were so thankful that there was donor breast milk available for him his first few days. It took away from some of the stress of the situation.

- CARLA, mother of recipient

In 2014, 829 women donated.

In 2014, 1,047 women donated.

In 2014 your donations contributed to an all-time high of $250,000 in annual distributions.
